

AL400 Manual Heat Seal Equipment 360 trays per hour, 6 trays per minute

AL400 (Manual Heat Seal Lidding Machine)

Compact, versatile and portable, the AL400 can produce big profits with minimal investment. The AL400 is a cost effective alternative to hand wrapping or tuck top trays. Quick and easy, this machine seals food in the container. Ideal for smaller-scale operations, the AL400 can seal at a rate of 6 containers per minute. Simply insert different tray holders to accommodate a variety of containers.

System Features
